

CHAIN AND ROPE GREASE 87

Semi-Fluid Wire Rope & Chain Lubricant

DESCRIPTION

JETTA 87 is a semi-fluid wire rope lubricant designed to meet the lubrication and corrosion prevention requirements of wire ropes working under all conditions.

FEATURES

- For ropes: Provides excellent internal and external protection, extending rope service life
- For ropes: Addition of solid lubricant reduces wear between the strands of the rope
- For ropes: Water repellant film ensures long film life extending re-lubrication intervals
- For ropes: Thin film eliminates fling off and does not collect abrasive particles
- For ropes: Ropes are clean to handle and allow easy inspection
- For ropes: Extensive covering power, resulting in economic usage
- For chains: Penetrates into the chain pin and rollers while leaving thin protective outer film
- For chains: Addition of solid lubricant reduces friction and wear extending service life
- For chains: Thin film eliminates fling off and does not collect abrasive materials
- For chains: Water repellent, ensuring long film life and extending re-lubricating intervals
- For chains: Extensive covering power, resulting in economic usage

PACK SIZES

Multiple pack sizes available on request.

APPLICATIONS

- Dockside and ship crane ropes
- Drag lines
- Hoists
- Mobile cranes

PRODUCT CHARACTERISTICS

Detailed typical values are available on request from our technical department.

Typical values shown do not constitute a specification. The information is based on current knowledge and is intended to describe the product for possible applications; it does not release the user from performing preliminary tests.
