

RED LITHIUM COMPLEX GREASE

Lithium Complex Grease · Red · Water Resistant

DESCRIPTION

An advanced multi-purpose grease designed for both industrial and automotive applications, utilizing a heavy base oil formulation for optimal bearing lubrication. Also designated Lithium Complex EP2T HV Red.

FEATURES

- Exceptional performance across wide operating temperature ranges
- Extended lubrication intervals reducing maintenance frequency
- Impressive water resistance protecting bearings from moisture damage
- Suitable for anti-friction and plain bearing applications

PACK SIZES

Multiple pack sizes available on request.

APPLICATIONS

- Manufacturing plants
- Automotive settings
- Industrial equipment maintenance
- Applications exposed to harsh conditions

PRODUCT CHARACTERISTICS

Detailed typical values are available on request from our technical department.

Typical values shown do not constitute a specification. The information is based on current knowledge and is intended to describe the product for possible applications; it does not release the user from performing preliminary tests.
